

**Alicija Kupliauskienė (maden name Matulaitytė, in translations from Russian Matulaitite, Kuplyauskene)**

**Curriculum Vitae**

**Business address:**

Institute of Theoretical Physics and Astronomy,  
A.Gostauto Street, 12,  
LT-01108 Vilnius, Lithuania  
Ph. (+370-5)2193270  
Fax: (+370-5) 2125361  
E-mail: alicija.kupliauskiene@tfai.vu.lt  
WWW: <http://www.itpa.lt/~akupl>

**Education**

- 1968-1973      Department of Physics, Vilnius University, Lithuania.  
Major: Theoretical Physics, degrees BA and MA  
summa cum laude
- 1974-1977      Institute of Physics and Mathematics, Vilnius, Lithuania.  
Doctor of Sciences studies, Physics, PhD.  
Advisors: Prof. A. Jucys, Prof. Z. Rudzikas

**Employment**

- 1969--1973      Vilnius University, Lithuania, (*Laboratory Assistent*)
- 1973--1976      Institute of Physics and Mathematics, Vilnius, Lithuania,  
Department of Quantum Mechanical Calculations (*Junior scientific researcher*).
- 1977-1989      Institute of Physics, Vilnius, Lithuania,  
Department of the theory of Atom  
(*Scientific Researcher* and *Senior Scientific Researcher*)
- 1990--2002      Institute of Theoretical Physics and Astronomy, Vilnius, Lithuania,  
Department of the Theory of an Atom (*Senior Scientific Researcher*)
- 2002--present      Institute of Theoretical Physics and Astronomy of Vilnius University, Vilnius,  
Lithuania,  
Department of The theory of an Atom (*Senior Researcher*)
- 2008--present      Institute of Theoretical Physics and Astronomy of Vilnius University, Vilnius,  
Lithuania,  
Head of the Department of The Theory of an Atom

**Research projects.**

**Ongoing research projects.**

1. PF7 project EURATOM/LEI, EFDA collaboration, 2007-2013, Principal investigator.

2. Subcontract of the FP7 project ADAS-EU between Strathclyde University and Vilnius University, 2010-2012, Principal investigator.

**Reports prepared with the participation or under the supervision of the applicant.**

1. Experimental and theoretical investigation of electron-impact excited complex atoms and molecules, Project for the Collaboration between Lithuania and Ukraine, 2009-2010, Principal Investigator.
2. FP6 project BASNET No. 017170, European Union, 2006-2007, Coordinator.
3. Taiwan - Baltic theoretical studies of spectroscopy of atoms and their behaviour in strong laser fields project, 2006-2009, Principal Investigator.
4. FP6 project BalticGrid No. RI026715, 2005-2008, Research scientist.
5. Electron, Photon Interactions with Atoms, Ions and Molecules, EC PECO Contract No ERB CIPD CT940025, UK-Lithuania, 1994-1996, Research scientist.
6. Travel grant, Open Society Fund - Lithuania, Vilnius, Lithuania, 1998.
7. A Mayer Foundation Research Grant "Theoretical investigation of laser-assisted processes in atoms" awarded by the American Physical Society, 1993-1994, Principal Investigator.
8. Travel grant to the XVIII ICPEAC in Denmark, 1993.
9. Theoretical atomic spectroscopy and its applications in laboratory and astrophysical plasma (TASAP-II), contract with World Laboratory, Vilnius, 1993, Principal investigator.
10. Mathematical simulation of laser processes, contract with Laser Centre, Vilnius, 1992, Principal investigator.
11. Investigation of autoionizing states of Ar atom, project with Meudon Observatory, France, 1989, researcher.
12. Investigation of the excitation, radiation and autoionization processes of atoms and ions in plasma and lasers, project with Bukarest University, Romania, 1986-1990, researcher.
13. Kinetics of the origin of X-rays in tokamak plasma, project with I.V.Kurchatov institute, Moscow, 1986-1987, Principal Invesitigator.
14. X-ray spectroscopic diagnostics of impurity ions in tokamak plasma, project with I.V.Kurchatov institute, Moscow, 1985-1986, Principal Invesitigators Z.Rudzikas and A.Kupliauskienė.
15. Complex of programs for the scattering of photons by atoms FOTON for the multiprocess computing complex ELBRUS, 1980, Principal investigator.

**Researcher training.**

**Supervising and consulting doctoral students.**

1. Kazimieras Glemža (defended 1987) – Candidate of Physics and Mathematics, Supervisors A.Kupliauskienė and Z.Kupliauskis.
2. Nerijus Rakštikas (defended 2002 m.) – Doctor of Physical Sciences.

3. Algis Maknickas – aspirant, (PhD student, studied 1990-1991 m., did not finished)
4. Egidijus Kiršis – doctorate student, (studied 1993-1994 m., did not finished)

Supervisor of 29 VU Physics Faculty, Vilnius Pedagogical University Diploma, Bachelor and Master degree students.

### **Subjects taught**

1. Atomic Theory for VGTU students, third year, 14 hours.
2. Quantum Scattering Theory, 3 years (20 hours) ITPA VU PhD students, 3 years (16 hours) VPU Master degree students.
3. Angular Momentum Theory, 40 hours, ITPA VU PhD students.

### **Publications used for the studies.**

1. A.V.Kupliauskienė, Z.J.Kupliauskis. The excitation of ions by electrons in Coulomb-Born approximation. Vilnius, Vilniaus University Press, 1988, 74 p. (in Russian).
2. A.Kupliauskienė. Quantum Scattering Theory, <http://www.itpa.lt/~akupl/kvstuden.htm>. 2006 (in Lithuanian).

### **Organisation of scientific events.**

- |      |   |
|------|---|
| 2000 | European Group Atomic Spectroscopy Conference, EGAS-32, Vilnius,<br>Secretary of the Local Organizing Committee.  |
| 2004 | 12 <sup>th</sup> International conference on Highly Charged Ions (HCI-12), Vilnius,<br>Member of the Local Organizing Committee.                                      |
| 2007 | Closing Conference on the FP6 project BASNET, Vilnius, Organizer.   |
| 2010 | 7 <sup>th</sup> International Conference on Atomic and Molecular Data and their<br>Applications (ICAMDATA 2010), Vilnius, Chair of the Local Organizing<br>Committee. |

### **Scientific expertise and other academic activity.**

- Expert of Lithuanian Science and Studies Fund, 2003 – 2009.  
Evaluator of FP6 projects, 2003-2006.  
Evaluator of FP7 projects, from 2007.  
Referee of Physica Scripta and Lithuanian Journal of Physics.

### **Participation at professional enhancement courses.**

1. Project supported by EU Structural funds „The training of the abilities of Lithuanian scientists integrating into European Union infrastructure“, 2004-2006, (SFMIS No. BPD2004-ESF-2.5.0-03-05/0038), Course of Lectures “International Thermonuclear Experimental Reactor ITER for future energetics”.
2. Project supported by EU Structural funds “Enhancement of the competence of scientists and other workers in the field of scientific investigations and technology development”, Course of Lectures “Management and administration of the FP7 projects”.
3. Project supported by EU Structural funds „The training of the abilities of Lithuanian scientists integrating into European Union infrastructure“, 2004-2006, (SFMIS No. BPD2004-ESF-2.5.0-03-05/0038), Summer School “Software for the analysis of astronomical data”.

4. Project supported by EU Structural funds “The training of the abilities of Lithuanian scientists integrating into European Union infrastructure”, 2004-2006, (SFMIS No. BPD2004-ESF-2.5.0-03-05/0038), Course of Lectures “Synchrotron radiation for the future changes”.

5. Project supported by EU Structural funds “The training of the Lithuanian scientists integrating into European Union infrastructure”, 2004-2006, (SFMIS No. BPD2004-ESF-2.5.0-03-05/0038), Course of Lectures “Laws of Europe for the regulation of scientific activity and juridical aspects in biomedical, physical and humanitarian investigations.”

6. Project supported by EU Structural funds “The training of the Lithuanian scientists integrating into European Union infrastructure”, 2004-2006, (SFMIS No. BPD2004-ESF-2.5.0-03-05/0038), Course of Lectures “Joint Research Center of Europe: science – industry – product – user – science”.

### **Mastering new research methods.**

Development of the graphical technique of the angular momentum theory to obtain the expressions of the matrix elements of physical operators in the case of non-orthogonal radial orbitals.

Development and application of atomic theory for the description of the polarization and the asymmetry of angular distributions in the interaction of atoms and ions with photons and electrons.

Application of relaxed-orbital approximation for the investigations of the simultaneous ionization and excitation of atoms and ions by electrons and photons.

### **Scientific papers.**

#### **Scientific monographs, studies, fundamental and theoretical works.**

E.V.Aglitskiy, V.V.Viktorov, A.V.Gulov, V.V.Ivanov, E.P.Ivanova, R.S.Kiselyus, K.N.Koshelev, **A.V.Kupliauskene**, A.M.Panin, Z.B.Rudzikas, Yu.V.Sidelnikov, A.N.Ryabtsev, U.I.Safronova, S.S.Churilov, V.P.Shevchenko. The spectroscopy of multicharged ions in high temperature plasmas. Moscow, Nauka Press., 1991, 206 p. (in Russian).

University, Toppenish, WA, USA and Ariel Michelman-Ribeiro, Boston University, Physics Department, Boston, MA, USA, AIP Conference Proceedings 795, Published November 2005; ISBN 0-7354-0278-7, p. 139-140.

**Teaching and methodical work at Vilnius University** (and other institutions, if for the purposes of competition):

**Reports at scientific conferences** (by personal presentation only).

7 Invited talks presented at the conferences (2 reports at EGAS conference, Barcelona 1994 m., HCI 2004 m. Vilnius, Lithuanian National Conference in Physics, Vilnius 1996 m. and 2005 m., BASNET Tallinn, Riga, Vilnius 2008 and 2009), a number of review reports at the seminars (Institute of Physics and Mathematics, Vilnius, Institute of Physics, Vilnius, Institute of Theoretical Physics and Astronomy, Vilnius, Vilnius University Physics Faculty, TEXTOR tokamak group (Germany), ADAS (UK), Institute of Electron Physics of the Ukraine Academy of Sciences, 2009 m.).

Published 143 abstracts of reports at the conferences. The titles of reports presented personally at the conferences of last 4 years are listed below.

1. A.Kupliauskienė. Elektronais sužadintų poliarizuotų atomų fluorescencijos spinduliuotės tyrimas. 37-oji Lietuvos nacionalinė fizikos konferencija, Programa ir pranešimų tezės, Vilnius, 2007 m. birželio 11-13 d., p. 146, 2007.
2. A.Kupliauskienė, V.Tutlys, Keh-Ning Huang. Auger electrons from polarized atoms ionized by polarized electrons. 37-oji Lietuvos nacionalinė fizikos konferencija, Programa ir pranešimų tezės, Vilnius, 2007 m. birželio 11-13 d., p. 147, 2007.
3. A.Kupliauskienė, K.Glemža, Keh-Ning Huang. Fluorescence from polarized atoms ionized by polarized electrons. 37-oji Lietuvos nacionalinė fizikos konferencija, Programa ir pranešimų tezės, Vilnius, 2007 m. birželio 11-13 d., p. 198, 2007.
4. A.Kupliauskienė. A General expression for polarized electron-impact excitation cross section of polarized atoms. XXV International Conference on Photonic, Electronic and Atomic Collisions, Freiburg, Germany, 25-31 July, 2007, p. Th041.
5. A.Kupliauskienė, P.Bogdanovich, L.Simon, A.Borovik. On radiation transitions between doublet autoionizing states in sodium. XXV International Conference on Photonic, Electronic and Atomic Collisions, Freiburg, Germany, 25-31 July, 2007, p. Fr063.
6. A.Kupliauskienė, V.Tutlys. Properties of Auger electrons following excitation of polarized atoms by polarized electrons. 4<sup>th</sup> Conference on Elementary Processes in Atomic Systems, Cluj-Napoca, Romania, June 18-20, 2008, Book of Abstracts, p. 65.
7. A.Kupliauskienė. Fluorescence of polarized atoms excited by polarized electrons. 4<sup>th</sup> Conference on Elementary Processes in Atomic Systems, Cluj-Napoca, Romania, June 18-20, 2008, Book of Abstracts, p. 66.
8. A.Kupliauskienė, A.Borovik. Radiacinių šuolių vaidmuo užpildant cezio atomo ( $5p^56s^2$ ) $^2P_{3/2,1/2}$  autoionizacines būsenas. 38-oji Lietuvos nacionalinė fizikos konferencija (2009 m. birželio 8-10 d., Vilnius), Programa ir pranešimų tezės, Vilnius, 2009, p. 176.
9. A.Kupliauskienė, K.Glemža, E.Karule, K.-N.Huang. Poliarizuotos spinduliuotės rezonansinė skliaida poliarizuotais atomais. 38-oji Lietuvos nacionalinė fizikos konferencija (2009 m. birželio 8-10 d., Vilnius), Programa ir pranešimų tezės, Vilnius, 2009, p. 177.
10. A.Kupliauskienė, Keh-Ning Huang, Angular distribution of fluorescence from sub-valence shell ionized alkaline atoms by electron impact, 41<sup>th</sup> EGAS, 8-11 July, 2009, Europhysics Conference Abstracts, vol. 33C, Gdansk, 2009, p. 116.
11. A.Kupliauskienė, A.Borovik, Keh-Ning Huang, Investigation of lowest autoionizing states of Cs, 41<sup>th</sup> EGAS, 8-11 July, 2009, Europhysics Conference Abstracts, vol. 33C, Gdansk, 2009, p.117.

12. A. Borovik, A. Kupliauskienė. Electron-impact excitation of the  $(5p^56s^2) ^2P_{3/2,1/2}$  autoionizing states in Cs atoms. 7<sup>th</sup> International Conference on Atomic and Molecular Data and Their Applications, Book of Abstracts, Vilnius, Lithuania, 2010, p. 71.
13. A. Borovik, A. Kupliauskienė. Total autoionization cross-section of cesium atoms excited by 12-600 eV electrons. 7<sup>th</sup> International Conference on Atomic and Molecular Data and Their Applications, Book of Abstracts, Vilnius, Lithuania, 2010, p. 72.
14. A. Borovik, A. Kupliauskienė. Elctron-impact excitation cross-sections for autoionizing states in cesium. 7<sup>th</sup> International Conference on Atomic and Molecular Data and Their Applications, Book of Abstracts, Vilnius, Lithuania, 2010, p. 73.
15. A. Kupliauskienė, A. Borovik, R. Juršėnas, Š. Masys. Large-scale configuration interaction calculations of 4p electron-impact excited Rb. 7<sup>th</sup> International Conference on Atomic and Molecular Data and Their Applications, Book of Abstracts, Vilnius, Lithuania, 2010, p. 74.
16. A. Kupliauskienė, A. Borovik. Investigation of lowest autoionizing states in rubidium atom, 10<sup>th</sup> European Conference on Atoms, Molecules and Photons, Abstracts, Salamanka, Spain, 2010, p. P-116.

### **Science popularisation.**

19 papers are published, a number of lectures were presented to pupils and society.
